I am a passionate Blockchain enthusiast, DeFi products developer and crypto currency trader.

My mission is to disseminate knowledge about Bitcoin, Blockchain and Cryptocurrency by creating my own educational website Aijus Blockchain.

EXPERIENCE

June 2021 - Current

DeFi developer *Aijus Digital* , London , Greater London

- Created flash loan bots on Aave to execute triangular arbitrage opportunities.
- Created triangular arbitrage bots to trade crypto currency pairs on Binance and Coinbase Pro.
- Identified flash loan arbitrage opportunities, analysed information, created trading strategies and executed successful trades.
- Executed high-volume orders to effectively meet my financial targets.
- Created NFTs on different platforms on BSC.
- Created my own Crypto currency called Aijus Coin.
- Created Dapps using Solidity, Web3, Node.js and Python programming languages.

November 2017 - Current

Cryptocurrency trader *Aijus Digital* , London

- Watched supply and demand for Bitcoin and altcoins on spot exchanges such as Coinbase Pro and Bitfinex.
- Analysed market trends to identify trades for Bitcoin and altcoins.
- Finalised trades and financial transaction on spot exchanges such as Coinbase Pro and derivatives trading platforms such as Bitmex, Bybit and Kucoin.
- Planned and executed crypto currency farming and staking strategies on Binance Smart Chain platforms Pancake Swap and Bakery Swap.
- Created NFTs.
- Thrived in fast-paced environment with energy and enthusiasm.
